Subject: Request For Visitor Visa To Canada

Dear Sir/Ma'am,

I Am Apply For Canada Visitor Visa.

I am **NAGA BABU PANGULURI** (Passport No: U7260880)
I am NAGA LAKSHMI PANGULURI (Passport No:U7261107)

I, **NAGA BABU PANGULURI** (Passport No: U7260880), Resident of H.NO.1-158
KOMMURU VILLAGE KAKUMANU MANDAL,GUNTUR PIN:522235,ANDHRA
PRADESH,INDIA.am planning to visit your country to explore the incredible natural
beauty of Canada and would like to experience its culture firsthand and diversity of
Canada. I have planned this tour, **for the period 17 days from 25TH MARCH, 2022 to
10TH APRIL , 2022**, such that I keep my self-busy to complete my planned travel
itinerary which I have mentioned below in details.

Being one of the responsible citizens of India, I have enough
properties and investments in my name in India, demonstrating my ties to the
country. Additionally, I am responsible to take care of my own family as all the
responsibilities of my family members are on my shoulders.

I hope that this information will sufficiently demonstrate my intentions
of travel as well as my ties to India, and allow you to issue the necessary visitor's
visa to me. I undertake to make sure that I do not remain in Canada further than the
period allowed for my stay.

Thank you for your time.

Yours faithfully,

NAGA BABU PANGULURI

Marvel at the wonders of physics and early 20th century technology when visiting Peterborough Lift Lock. This particular lock is the highest hydraulic lift lock in the world at a height of 19.8 m (65 ft), almost 60 feet higher than other conventional locks of the time. It functions purely by gravity, with one caisson acting as a counterweight for the other. Visit the information center which offers interactive simulations and historical exhibits about the lock's construction. Take a lunch or dinner cruise along the waterway on a riverboat, where you can experience the ascent and descent for yourself.

One of North America's most impressive natural attractions, Niagara Falls Canada straddle the border between the United States and Canada, marking the point at which the eponymous river plummets over a prominent escarpment. Two cascades on the U.S. side and one on the Canadian combine to form the most powerful waterfalls in the

world, harnessed to produce electricity using a generating system invented by famed scientist Nikola Tesla. Experience the sheer force of the water by taking a boat tour from the base of Horseshoe Falls, or climb to the top the observation tower for a bird's-eye view of the entire region.
